About Dr Gail Zhou

Dr. Gail Zhou holds a PhD in Electrical and Computer Engineering from University of Tennessee. Her PhD Dissertation Pioneered AI/ML application in process control, using MATLAB to simulate systems and generate thousands of training data sets for ML algorithms. For details see [PhD Dissertation on AI/ML Applied to Process Control](#).

Dr. Gail is a Principal Software Engineer (previously a Principal Architect) with a strong track record of leading solution design and development, prototyping, and delivery programs.

Since joining Microsoft, Gail has led more than 60 customer engagements across industries and has consistently helped customers move from strategy to secure, scalable production outcomes. Gail also led the development and publication of 12 GitHub solution accelerators and one engineering publication.

Gail's hobbies include birding, reading, cooking, traveling, gardening, and hiking. Gail loves birds and runs a bird-focused YouTube channel (link: [cardinal100](#))
